## ABOUT ME

Creative architect & designer with a human-centered design process approach, focused on people's behavior, their needs and their surroundings with an ultimate goal of generating positive social impact.

---

## PROFESSIONAL EXPERIENCE

### Michalski Studio

*Intermediate Architect*  
2017-Current  
New York, NY

Involved in all phases of work, including concept development and schematic design, presentation, construction documents and construction administration for residential projects.  
Worked on large-scale and small-scale projects in a wide range of contexts with a holistic and client-focused approach to design.

### Freelance Architect Designer

*2016-Current*  
New York, United States  
Buenos Aires, Argentina

Architectural design for a residential project during the initial phase.  
Furniture design. Industrial design.  
Drawing 2D CAD. Modeling and Rendering.

### Montes Laudano Architects

*Architect*  
2013-2015  
2016  
Buenos Aires, Argentina

For commercial store projects located in Miami, Los Angeles and Hawaii:  
Coordinated between the French client and designers, and the US based general constructor, technical consultants, and suppliers.  
Developed CAD documentation during the permit, bidding and construction phases.  
Drafted reports and sketches to consultants and vendors proposing and following up on the implementation of adjustments.

### Cordeyro Associates

*Architect*  
2012-2013  
Buenos Aires, Argentina

For brand new residential and corporate projects, as well as renovations:  
Proposed sketches and renders for the initial conceptual phase of the design.  
Developed CAD documentation during design and construction phases.  
Involved in the development of an Urbanization project in a region of the Argentine coast.

### Richter-Dahl Rocha architects

*Intern*  
2011  
Buenos Aires, Argentina

Developed CAD documentation for a collective housing project in Lausanne, Switzerland, the architectural firm's headquarters.

---

## CERTIFICATIONS & TRAINING

### Parsons School of Design

*Product Design for the home*  
2018

Designed furniture for the home from initial idea to final drawings, models, presentation, with an emphasis on establishing a rigorous and individual design process. Project involved problem solving, market research, and historical study, as well as materials and manufacturing research.
